

MOHAMED AHMED ABDI

AI Engineer & Software Developer

nunkinho114@gmail.com | linkedin.com/in/mohamed-ahmed-6013912b4 | GitHub: Mohamed19-nk

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science student specializing in Artificial Intelligence and Systems & Information Security at Mount Kenya University. Passionate about building intelligent, real-world tech solutions with hands-on experience in full-stack development, Firebase integration, and AI-powered systems. Entrepreneur at heart, with an active portfolio of deployed projects and a drive to bridge technology with practical impact. Currently developing **Amal TalentBridge AI** — an intelligent career development and opportunity recommendation platform — as a final year project.

TECHNICAL SKILLS

Languages

JavaScript, TypeScript, Python, HTML/CSS

Frameworks

React, Next.js, Tailwind CSS

Backend & DB

Firebase (Firestore, Auth, Realtime DB)

Tools

Git, GitHub, VS Code, Vercel

AI/ML

AI Logic, Prompt Engineering, ML Fundamentals

Methodologies

Agile, Scrum, Software Dev Lifecycle (SDLC)

Security

Network Security, Information Security Fundamentals

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Team Collaboration
- Entrepreneurial Mindset
- Communication
- Self-Motivated Learner

PROJECTS

Amal TalentBridge AI

Final Year Project

Tech Stack: Next.js · Firebase · Tailwind CSS

An intelligent career development and opportunity recommendation platform featuring modern portfolio management, real-time messaging, Firebase integration, and AI-driven talent matching capabilities.

Admin Dashboard

Personal Project

Tech Stack: React · Firebase · TypeScript

A real-time admin dashboard featuring live analytics, advanced search functionality, CSV export tools, and an integrated spam detection system for enhanced content moderation.

EDUCATION

Bachelor of Science in Computer Science

Mount Kenya University, Thika | Expected 2027

Specialization: **Artificial Intelligence and Systems & Information Security**

Relevant Coursework: Computing Projects Development, Electronic Commerce, Network Administration & Configuration, Human Growth and Development

CERTIFICATIONS

Software Engineering Essentials

IBM via Coursera | 2024–2025

Covered software development fundamentals, Agile practices, and structured problem-solving.

PLP Certificate

Power Learn Project (PLP) | 2024–2025

Program covering practical software development and tech entrepreneurship skills.

REFERENCES

Available upon request.

AI Spam Detection System

Personal Project

Tech Stack: JavaScript · Firebase · AI Logic

A message filtering system that automatically detects and flags suspicious or spam content using custom AI logic integrated with Firebase for real-time data processing.
